This four-person apartment is located on the ground floor of the Vista Maris complex. This ground-floor apartment has a chic urban design and is accessed through a central hall. The apartment comprises a living room, open kitchen, two bedrooms, a bathroom, a toilet and a balcony.

The bright living room has been furnished tastefully. An excellent place to unwind on the couch in front of the flat-screen TV after a long day. If the weather is nice, you can slide open the doors to the garden to let the sun in. With underfloor heating in every room, this apartment makes a wonderful base even in colder temperatures. The living room leads to the open kitchen, where you will find a combination microwave, dishwasher, refrigerator, freezer, toaster, kettle and coffee machine (filter, Nespresso).

The bathroom has a walk-in shower, bathroom cabinet and mirror. The apartment has two bedrooms, both furnished with bedside tables, a closet and a box spring bed with two separate mattresses (80 x 200 cm). The bedrooms also have sliding doors that lead onto the balcony (27 m²).

Finally, the apartment has a storage room (10 m²) and a private parking space at the marina. If you arrive with multiple cars, you can park them in a large public parking lot within walking distance of the apartment.

Look out across the magnificent Oosterschelde National Park from your holiday home. This extraordinary, watery landscape stretches farther than the eye can see. Water plays an important role in the environment of this apartment, but there is much more to discover!

The centre of Sint Annaland offers a wealth of nice stores and restaurants, and there are many green walking and cycling routes through the typical Zeeland landscape.
